

Organic Advisory Services to Farmers and Growers

For farmers who are considering converting to organic production please see OF&G Technical Leaflet 101 – An Introduction to Organic Certification for Farmers and Growers.

The organisations and companies listed overleaf offer consultancy services to farmers interested in converting to organic production, as well as those undergoing conversion or who are already organic.

The details given for each advisor have been supplied by that advisor. Please be aware that advisors undertaking work resulting from the appearance of their name on this list, do so entirely in their individual capacities, negotiating their own terms and fees and in no sense representing OF&G. Inclusion in this list does not constitute a recommendation by OF&G. OF&G cannot accept any responsibility or liability.

Notes on the Advisor List

Speciality Indicates the advisor's areas of expertise.

Area Indicates the geographical area covered by the advisor.

For further information about conversion, certification, our standards and publications, please contact the OF&G office

**Organic requirements are in addition to other statutory requirements
Statutory information is for guidance only and is correct at time of going to print.**
